

TOTAL COST OF IRRIGATION IS ASSUMED BY BOARD OF TRADE

\$2,500 Balance to be Paid Off From Time to Time as Board Moves

The Bannock Board of Trade at the bi-weekly luncheon meeting last afternoon assumed liability for the total cost of constructing the town irrigation system, the amount not to exceed the sum of \$5,000.

A resolution to that effect was presented by Wm. Buchanan, and when put to a vote was carried. Of the total liability, the sum of \$2,500 has already been paid, and the balance is to be paid off from time to time as board monies are available.

The resolution brought down little discussion. Wm. McEwen opposed the resolution, for the reason that he did not want to see the board assume such a heavy liability, and for other minor reasons. Mr. McEwen said, however, that he was not opposed to raising more money to the town from time to time to help pay the cost of installing the irrigation, but he was opposed to the board assuming any liability.

The secretary reported that he had written a reply to the letter from the Calgary Board of Trade re the board of trade's offer to help repaying to the latter the assigned the willingness of the board to co-operate with the Calgary Board in this respect, and suggested that the subject of irrigation and public affairs committee said there was nothing definite to report except that the committee was working on the problem of getting a bridge across the river, and also on the problem of getting a water crossing for the traffic coming in across the river from the south.

It was reported that the approach to the bridge at the Fisher hill south of town was in a bad way, and it was decided to take up the matter with the department of public works at Edmonton.

Harry Powers, a one time business man of Bannock, who was on the board at the luncheon. Mr. Powers spoke for a few minutes to the members, and said he was pleased to see the board still going strong.

Gem News

GEM, Oct. 27.—The teachers are getting a Halloween party for the children in the school on Saturday evening, October 28.

Threshing operations are proceeding in the colony, but the morning mists are causing some delay in the work. More than sixty per cent of the grain is now threshed, and the yields are being obtained by the farmers. Yields are running from forty to forty-five bushels per acre.

M. E. Dorman, of California, who formerly was a gem dealer, was visiting friends in the city on Monday for Calgary to attend the technical school, which will start on Monday at the Mount Royal Hotel.

Mrs. Roy Rabon, of Hunsar, who left recently to visit her sister in Oregon, returned last evening. Young Walter Follock leaves on Monday for Calgary to attend the technical school, which will start on Monday at the Mount Royal Hotel.

Mr. and Mrs. H. G. Angell, of Bannock, were the guests of Mr. and Mrs. K. Small on Sunday last. Mr. A. P. Fryberger, of Chario, Montana, is back in the colony on a visit.

A few gemmen attended the dance in Lethbridge last Friday evening. Miss Edna Robson spent the weekend with Mildred Ferguson at Lethbridge, taking in the dance Friday evening.

Mr. Jas. Maguire, of the Indian Mission at Kamloops, arrived in the colony on Tuesday for an extended holiday with his brother, T. Maguire. A representative of one of the grain companies was in the city this week looking for an elevator site.

M. D. Macdonald, of Bannock, and P. R. Harvey, who is in the colony this week on survey, were the guests of Mr. and Mrs. P. Murphy and Wm. Marshall, of Bannock, spent Sunday with Mr. and Mrs. J. Maguire, and the party making a trip to the Red Deer river.

Hunsar News

HUNSAR, Oct. 19.—The Ladies Aid will give lunch at the school last Thursday.

W. S. Clark was a Bannock visitor Saturday. Mrs. Hunsar and Mrs. R. Armstrong were Bannock visitors Monday.

Miss Eleanor Moffat, owner of the week-end at home, returning to the Normal School Monday morning.

The moving pictures with us again every Wednesday evening. Remember the services at the Community Hall at 7:30 Sunday evening. Rev. Barton will preach. All interested are cordially invited to attend.

The school fair is to be held on Saturday, and at 10 o'clock on Friday. As the teachers are acting as judges at Standard, there will be no school here on Friday.

Mrs. Bowerman returned from Bannock on Tuesday. D. Moffat returned from Portland Monday, after a visit with his wife and mother there.

NEW AREA ADDED BASSANO MUN. HOSPITAL DIST.

People of Rockyview Area Vote to Join Bassano Municipal Hospital District

The board of the Bassano Municipal Hospital District, which held a meeting and transacted considerable business, met last night.

The new area at Rockyview, consisting of Township 11, Range 13, was added to the hospital district by a vote of the people of that area. The vote was taken at a public hearing held on October 20th.

The vote in favor of joining was unanimous. The change in the Municipal Hospital Act were brought to the attention of the board, and an amendment whereby every tax payer in a city, town, village or hamlet shall pay a minimum hospital tax of \$1.00.

There is also an amendment whereby any resident non-taxable person over 18 years of age, prior to April 1st, 1937, wishing to avail himself of the minimum rate, must make application to the local health authority (which in the case of Bassano residents is the town council), or for those living in an unincorporated district, to the department of municipal affairs at Edmonton.

The new area at Rockyview, which was added to the hospital district prior to July 1st, 1937, falling within the minimum hospital rate, shall pay a minimum hospital tax of \$1.00.

The new area at Rockyview, which was added to the hospital district prior to July 1st, 1937, falling within the minimum hospital rate, shall pay a minimum hospital tax of \$1.00.

The new area at Rockyview, which was added to the hospital district prior to July 1st, 1937, falling within the minimum hospital rate, shall pay a minimum hospital tax of \$1.00.

American Legion Honors Captain

Signal Honor has been conferred on Captain H. Sibbons, R.N.R.

Commander of the Canadian Pacific Motorway, by the members of the American Legion who sailed 500 strong on his ship from England recently, after the gathering of the Legionnaires in Paris in September.

Key of the Legionnaires who journeyed both ways on the "Montroyal" to attend the convention, were carried by this ship to France during the Great War and renewed the friendship with the popular commander. The majority of the Legionnaires on the peacetime journey to France were from the middle west and west of the United States.

In honoring Captain Sibbons with the official medal, Adjutant Byrnes said that the best of America, proved to be no less than a signal honor has been conferred on Captain H. Sibbons, R.N.R.

Jenner Farmer Gets Big Crop After Ready To Give Up

Tuck of Luck Brings Him Bumper Crop of Wheat

Threatened with having had no money for crop failures, H. Anderson, of the Jenner district, took down his barn last spring and took his staff, to the Jenner station to move. Unable to serve a car for at least one day, he had no recourse but to go back to his farm and wait.

The immediate result was that he received a 25 bushel crop of wheat. When threshed Mr. Anderson received a 25 bushel crop of wheat.

Although the formation of such a company has only been hinted at in dispatches from the east, the financial officials in Calgary have advised that some of the men who are expected to form it, have been in touch with the situation and have heard the subject discussed, and there was little doubt that nearly all the trust and loan companies were at least considering common action with a view to securing settlers for the lands which were acquired when mortgages failed to make contract payments.

Although under discussion are in the zone which suffered from drought, those composed of direct, light or poor soils, and land in the bush country.

Those lands in the area between Tully and Medicine Hat, and also in the Stoverville, Jenner, Coxford, and in the Howie district would probably be included in the scheme.

Mr. Wood's proposal was made at a hearing before the Tariff Advisory Committee, which had been called to consider a demand for a reduction of the duty on sugar beets.

FORMULATE PLAN TO SETTLE ABANDONED LAND

Plan to Form Trust Company Which Will Take Over Land in Great Area Now Acquired by Mortgage and Loan Companies

Calcuttation of the sub-marginal lands of Alberta and of the great financial results, will result from the formation of a company which will take over the control of the many thousands of acres which have passed into the control of the various mortgage companies and loan companies of the Dominion.

Although the formation of such a company has only been hinted at in dispatches from the east, the financial officials in Calgary have advised that some of the men who are expected to form it, have been in touch with the situation and have heard the subject discussed, and there was little doubt that nearly all the trust and loan companies were at least considering common action with a view to securing settlers for the lands which were acquired when mortgages failed to make contract payments.

TARRIF CUT MAY AFFECT FUTURE OF BASSANO

Cut in Sugar Tariff May Halt Tentative Plans for Sugar Beet Industry Here

OTTAWA, Oct. 26.—Facing a demand for reduction of the protective tariff on sugar which he said would ruin the beet sugar industry, G. T. Wood, manager of the railway at Raymond, on Tuesday countered with a promise for a study to the manufacturers and growers of the province.

Mr. Wood's proposal was made at a hearing before the Tariff Advisory Committee, which had been called to consider a demand for a reduction of the duty on sugar beets.

11th FORTNIGHTLY CROP REPORT

Issued by the Department of Agriculture, Edmonton

Threshing has again been excellent during the past week of excellent weather throughout the province according to information received by the department of agriculture. Sun and wind have largely remedied the effects of the rains, and a good deal of the grain now being threshed is "straight". It is estimated that about 40 per cent of the crop is now threshed, and three weeks of new threshing is being completed. Some 6,500 acres are being operated in the province with an average total daily output of more than eight million bushels.

Reports from a number of points are showing that threshing is exceeding earlier predictions as to the yield, and the majority of recently threshed wheat is grading No. 3 or No. 2. Good progress is being made in the threshing of oats and barley, and very little damage is apparent as a result of weathering.

Fully 10 per cent of threshing is completed in the Peace River district, and a high average yield is reported over large areas in this part of the province.

Elevators generally have had no trouble in handling the new crop grain. A slight shortage of farm trucks is being reported from a number of points, especially in the south of the province. This factor has decreased the yield of sugar beets in estimate at fully 10 per cent, and heavier than last year's crop, and the sugar content of the beets shows a decided increase.

Pastures have held out well during the fall months, and live stock is in good condition, with an ample supply of feed available for the coming winter.

Good progress is being made with fall plowing in fields cleared of stock and following the rains of the past few weeks the soil will enter the season's work with a good deal of regard to moisture for next season's crop.

WHEN EVE WAS A GIRL.
The maidens were witty
And warty pretty—
Could warble a lullaby
As gay as a mermaid;
In days they were warty;
In manners not called.
When Eve was a girl.

They never played with Jongs.
Bridges, poker or ping pong;
Laid then, was a calm song.
And not a mad whiff;
They never raged their faces,
Or bet on the races.
Nor went the "with pains".
When Eve was a girl.

They were no, hopped treases
Or post-hoop dresses.
Nor lavished carouses
On any poor churl;
So, in retrospection,
We find on reflection,
The maids were perfection.
When Eve was a girl.

"Now," said the school teacher
during reading lessons, glancing around the class, "can any of you tell me what is the meaning of 'divers diseases'?"
"Please, sir," said Tommy with confidence, "divers diseases is water on the brain."

Perhaps if the shingle were applied behind instead of on top there would be more respect and obedience from the younger generation.
Planner Fanny asks, "What have girls done with all the time they saved by hobnobbing their hair?" Probably spent it waiting in the "next" line at the barber shop.

Records in wheat yields and grain shipments are being broken these days. Now if the price would reach the record figure the farmer would be sitting on top of the world.

"Big Bill" Thompson, the patriotic mayor of Chicago, is waging a war on everything pro-English. Wonder what he is going to do about the English language he speaks. From the look of him he is some of his speeches it looks as though he is trying to muddle it.

MUNICIPAL HOSPITALS

In a recent issue of the Montreal Family Herald and Weekly Star there appeared an editorial dealing with the country hospital problem. "The time has arrived," said the Montreal paper, for provincial legislatures to give serious attention to the crying needs of country hospitals. Already the governments of some, if not all of the provinces, make grants of money to city hospitals, partly because they now minister to the needs of the whole of the provincial populace. But even in the case of rapid railway and automobile transport, the suffering and danger to life involved in prolonged journeying to the city hospitals is often extremely dangerous. The lack of a hospital in many districts a great inconvenience, and the cause of much suffering, and perhaps loss of life.

In this respect the Bassano district is in a very favorable situation. We have a modern, well equipped hospital that has been a great boon to the people of the district. Before the hospital was established sickness was taken to the city it was a heavy expense.

Now the patient goes to the Bassano hospital where the best nursing care and medical attention is given, and under the municipal plan the cost is comparatively low.

LINKS ON A SKELETON

Behold this ruin! 'Twas a skull, Once of the ethereal spirit full; This narrow cell was life's retreat. This space was thought's mysterious spot.

What beauteous visions filled this spot! What dreams of pleasure long forgot!

Nor hope, nor joy, nor love, nor fear Have left one trace of record here. Beneath this mouldering canopy Once dwelt the bright and busy eye; But start not at the dismal yield. If social love that eye employed; If with no lawless fire it gleamed, But through the dews of kindness moist.

That eye shall be for ever bright. When stars and sun are sunk in night.

Within the hollow cavern hang The ready, swift, and tuneful tongue. If falsehood's honey it disdained, And, when it could not praise, was chained.

If bold in virtue's cause it spoke, Yet gentle concord never broke, That silent tongue shall plead for thee.

When time unrolls eternally, Say, did those fingers drive the mine? Would'st thou the force of war the gem Can little now avail to them? But if the force of truth they sought Or comfort to the mourner brought, These hands a richer need shall claim.

Than all that waits on wealth or fame. Avail it whether bare or shod. These feet the path of duty tread, If from the bowers of ease they fled To seek affliction's humble abode; If grandeur's giddy bribe they scorned.

And home to virtue's cot returned, These feet with angel's wings shall tread, And tread the palace of the sky.

WORK TO START ON POOL ELEVATOR AT COAST

The contract for the big terminal elevator to be erected at Vancouver by the Alberta Wheat Pool has been let to the Northern Construction Co. Ltd., and J. M. Stewart. It is announced, from the head office of the pool in Calgary.

The elevator when completed will cost in the neighborhood of \$1,000,000 and will have a capacity of some 2,000,000 bushels. Plans call for its completion in time to handle the 1933 crop. This year the pool is operating under lease "No. 2" terminal of the Vancouver Harbor Board which has a capacity of 1,000,000 bushels.

CIRCUS NOW TRAVELING BY MOTOR CAR

When the circus comes to town, it happens to be Downie Bros. Wild Animal Circus, it comes by Chevrolet. Seventy-five of them—sturdy, one-ton trucks—make up the train that transports this entire show, wild animals and all, from the time in the early spring it leaves its winter quarters at Harve de Grace, Md., until it returns there late in autumn.

The 75 Chevrolet carry the entire show, consisting of 300 elephants, mice

class, tight rope, walkers, and other employees, as well as lions, tigers, the "Big Top," side shows, and complete equipment, everywhere on the circuit from inaccessible mountain hamlets to seaside towns. One truck used by general manager Harlow as a summer home provides him with a residence on route. Another carries a complete electric lighting plant.

AMERICAN SETTLEMENT

WINNIPEG—"More settlers are coming from the United States to make homes in Canada than in any year since 1926," said J. R. Ryan, travelling colonization agent from the R. Paul office of the Canadian Pacific Railway. "Personally," he said, "I have brought 76 families this season and have every reason to believe that the total will be well over 100 before the end of the year. All the settlers have money—some very well supplied."

CALGARY MAY HAVE FLYING CLUB

CALGARY—Calgary is considering the establishment of a flying club, following the offer of the Department of National Defence to provide ships if the city will supply a field and sound organization is effected. Mayor Osborne has called into consultation Captain Fred McCall, noted Canadian ace.

The teacher had been explaining the word "relax" and wanted to see if Claude had understood by the lesson. "When your father has relaxed all the work for the day what does he do?" asked teacher.

Claude shook his head sadly as he replied, "That's what mother always asking."

Mrs. Grubb (after a lift)—When I married you I didn't know you were such a coward. I thought you were a brave man.

Mr. Grubb—So did everybody else.

A Quaker had gotten himself into trouble with the authorities, and the sheriff called to escort him to the lock-up. "Is your husband in?" he enquired of the good wife who came to the door.

"My husband will see thee," she replied, "Come in."

The sheriff entered, was bidden to make himself at home, and was pleasantly entertained for half an hour, but no husband appeared. At last the sheriff grew impatient. "Look here," he said, "I thought you said your husband would see me."

"He has seen thee," was the calm reply, "but he did not like thy looks, and has gone another way."

More Heat For Less Money
In our Circulator Heaters we have at last solved the problem of how to get more heat for less money. They not only will burn any kind of fuel, but draw the cold air from the floor and discharge it heated into the room.
The Miracle Circulator
A special heater that does the work of a furnace, but burns no more fuel than an ordinary stove. Heats four to seven rooms like a full powered furnace. Finished in Walnut Enamel to match the furniture.
Dominion Circulator
Similar in construction to the Miracle Circulator, but not equipped with the secondary heating system. Finished in plain steel with nickel trim. The next best to the Miracle.

Quebec Heaters, that in design and construction, embrace the latest in this style of heater.

Miss Morrison spent Sunday in Glendon.

Philip Laquet returned from Calgary with a Ford.

Mr. and Mrs. E. N. Bille were down from Harnar on Tuesday.

Mr. and Mrs. R. A. Beck spent a couple of days this week in Calgary.

Ben Gray, the Glen amateur, was Monday visitor to Bassano.

Consuelo McElroy motored in from Calgary Saturday.

Dr. W. G. Anderson, of Stirlingville, was in Bassano last Monday.

Harry Welch was in Wednesday and took out a combine harvester to his farm in Malvern.

Fred Hamey, of Calgary, is a new addition to the roundhouse crew on the C. P. R. staff here.

The Women's Institute held their regular meeting in the L.O.O.F. Hall on Tuesday afternoon.

Mr. and Mrs. Laurie and children have moved into a residence on Seventh avenue.

Miss Myrtle Balle returned on Sunday after spending a couple of weeks vacation at her home near Canby, Alberta.

H. W. Ford, C. A., has returned from a trip on professional work to Hanna, Youngstown, and other points on the C. N. R.

E. P. Maurer pulled in his threshing outfit from Harnar on Monday, having finished the season's run.

The Women's Institute will hold a home cooking sale and bazaar on Wednesday, November 22, in the Oddfellows' Hall, from 3 to 6 p.m.

Miss L. D. Nesbitt returned home on Calgary Saturday afternoon, after visiting for the week with Mrs. E. A. Beck.

Mrs. M. Lee and Geo. Travis spent several days last week in Calgary and this week visiting with Mr. and Mrs. Angus Smith, of Lathom.

Gen. Hefner is holding an auction sale at his farm north of Coanville on Wednesday, Nov. 24. Mr. Hefner will soon open his butcher shop in Bassano.

Monday, November 21, is Thanksgiving Day and Armistice Day. It will be observed as a public holiday throughout Canada.

C. A. Hayden, news editor of the Calgary Herald, was in Bassano last Saturday on a duck and goose hunting trip in Bassano.

J. B. Mayor, of Calgary, was a business visitor to town on Monday. Mr. Mayor was formerly practicing law in Bassano.

Mrs. F. H. Berry and youngest daughter, of Brooks, was an afternoon visitor to the Playfair home on Saturday.

Mr. and Mrs. Harry Powers and Mr. and Mrs. Geo. McLeod, of Calgary, were visiting friends in Bassano on Wednesday.

Mr. and Mrs. A. F. MacCallum, of Glendon, accompanied by Dr. Armstrong, brought Little Freda down for medical treatment on Sunday.

W. S. Playfair was in Hanna on Monday and Tuesday examining some hundreds of cattle which are being shipped to the Chicago market by the Crooks.

Mr. and Mrs. Hannaford, who are farming about 25 miles east of Wardlaw, across the Red Deer river, passed through Bassano on Tuesday on their way home from Calgary.

They were taking out a couple of grain trucks which will be used to haul their 20,000 bushel crop to the railway at Wardlaw.

If you are contemplating buying a motor car or truck, it will pay you to come in to town on Tuesday or Wednesday, Nov. 22, and see those on sale at Jack Torgans.

MANY HOMECOMERS

WINNIPEG—Homecomers taken up in August in the four western provinces totaled 532, as compared with 482 in August, 1924. For the eight months up to and including August amounted to 4,284, as against 4,000 for the same period last year.

For the same period last year, 1,514, and British Columbia 1,262, against 1,214.

Clerk of the Court: "Well, gentlemen of the jury, have you agreed upon a verdict?"

Foreman: "We have."

Clerk: "What do you say? Do you find the prisoner at bar guilty or not guilty?"

Foreman: "We find the prisoner at bar guilty or not guilty?"

Clerk: "You do. Do what?"

Foreman: "Find the prisoner at bar guilty or not guilty?"

Clerk: "But gentlemen, you must explain."

Foreman: "Of course. You see, six of us find him not guilty, so we have agreed to let him go at that."

Paddy, once asked Sandy if he would lend him 300 pounds to buy a bakery business.

Sandy thought for a moment, and then answered: "Sure, old man, but I 'need' the 'dough' myself."

"Why did they elect that medical student from the library?"

"He was caught trying to remove the appendix from a book he was reading."

WINTER RATIONS FOR MILCH COWS

Winter rations for dairy cows should, as nearly as possible, correspond with the natural pattern of summer, if economical gains are to be secured. Winter rations must, therefore, be palatable, nutritious, succulent, and readily digestible.

On the Dominion Experimental Station, Montreal, the daily winter ration per 1000 pounds live weight for cows in full milk is as follows: Mixed alfalfa and ryegrass or oat and pea hay 12 to 14 pounds, corn chop 25 pounds, roots (mangel) 22 pounds, and a grain mixture composed of 5 parts crushed oats, 2 parts wheat bran, 1 part peas meal, and 1 part oil cake meal. One pound of this mixture is fed for every three and a half pounds of milk given.

As individuals reach the last few months of lactation, grain is fed more economically, i.e., at the rate of one pound to each 4 or 5 pounds of milk given.

During the winter of 1924-25 five cows at Morden on the above ration averaged 40 pounds of milk per day and made an average daily profit over feed of 56c.

On well regulated dairy farms either silage or roots should be available. The following rations are recommended when only one of these succulent feeds is included.

(a) Grass or mixed hay 15 pounds roots 40 pounds. Meal mixture—bran 4 parts, crushed oats and barley 2 parts each, oil cake or cotton seed meal 2 parts. Fed at the rate of 1 pound per 3 1/2 pounds of milk produced.

(b) Grass, alfalfa, or mixed hay 15 to 14 pounds, corn chop 25 pounds, with the same grain ration as outlined in (a). Oat straw can hardly be fed profitably to the high producing dairy cow unless in sparing quantities with alfalfa or clover by using 10 pounds alfalfa to 5 pounds of the straw. Alfalfa and clover are difficult to excel as a fodder for milk production and when successfully grown can always be fed profitably.

(From the Dominion Experimental Station at Morden, Man.)

TO SLAUGHTER 1,000 HEAD OF BUFFALO

In order to reduce the size of the buffalo herd at Yellowstone, which of recent years has been increasing rapidly, 1,000 head of these animals will be slaughtered during the coming fall and winter. The F. Burns Co., of Calgary, it is understood, has the contract for the killing, and the meat will be sold as a commercial product, while the hides find a ready market. In spite of the transfer of some 4,000 head of buffalo to the park preserves in the north, the remainder of the herd is still too numerous for the carrying capacity of the park.

A Taste for Liquor

A little group was sitting on the verandah of a country club one day and one of the party, a girl with very short skirts, was sitting opposite a Scotsman. Every little while the girl would pull her skirts down over her knees, and the Scotsman, noticing this, said, "It's all right, lassie, me only weakness is whisky."

THE DADDY OF THEM ALL

A Russian peasant named Theodore Wassiloff, has established a world record in the matter of being a daddy. When he calls "children" if anything happens. This he has proved. His first wife presented him with 50 pairs of twins, seven groups of triplets, and four sets of quadruplets. That made 57 children. The second wife presented him with 50 pairs of twins, seven groups of triplets, and four sets of quadruplets. That made 57 children. The second wife presented him with 50 pairs of twins, seven groups of triplets, and four sets of quadruplets. That made 57 children.

ONTARIO PREMIER SUGGESTS SUBSIDIZING COAL SHIPMENTS

Burns support in Alberta's move to place coal from this province on the Ontario market was promised by Hon. Howard Ferguson, premier of Ontario, at a luncheon tendered him by the Alberta government and the Edmonton Board of Trade in Edmonton last Saturday.

Premier Ferguson, who was welcomed by Hon. Geo. Hoadley, urged the granting of a subsidy by the Dominion government to overcome the difficulty of high transportation charges on coal to encourage inter-provincial trade, and suggested the same procedure to assist in moving grain, beef, fish, and other western products to the markets of eastern Canada.

HOME-MADE JELLIES

In making different kinds of jellies the housekeeper very often finds the results of her work to be somewhat inaccurate. Sometimes the jelly refuses to harden, or it becomes watery, or some other trouble crops up.

However, a bulletin on preserving fruits and vegetables in the home, distributed by the publication branch of the department, of agriculture, Ottawa, tells how to avoid these difficulties. It is pointed out that in order to make good jelly it is essential to have fruits that contain pectin and acid. The best fruit for making jelly are those which contain these two ingredients in the proper proportions, such as apples, grapes, currants, and plums. Strawberries, blueberries, etc., lack pectin and require the addition of apples or currants which are high in pectin content. When fruit becomes over-ripe its pectin loses its value for jelly making. It is therefore necessary to use fruit which is just ripe, or slightly under-ripe. Full directions for making jellies and a number of recipes are given in the bulletin.

HEALTH EDUCATION AND THE RED CROSS

How to be healthy and keep so is a problem that looms largely before every person in whose ear is placed a family of children, large or small. Modern life makes so many demands upon parents that frequently in the rush of keeping up with the times they are forgetful that the greatest wealth is health. Sickness means great economic losses to any community.

To the school it means a serious loss of time both for student and staff. Amongst the most lost values we find an alarmingly high death rate. Mothers and new born babies need the most complete and adequate health protection. For the infant and infant death rate prove that too many births are attended whether with nursing or medical care.

The Red Cross is exerting itself in promoting the improvement of health and the prevention of disease as well as the mitigation of suffering, not only in Alberta, but all over the world.

Its health education bureau in Alberta publishes and distributes large quantities of health literature for the purpose. On the shelves of the Provincial Office are many pamphlets for the education of the mother in the homes in matters of health for her family. A large and new shipment has been received from Ottawa of the Canadian Mother's book, and it is hoped that every young prospective mother will write in and obtain a copy free. The message of health is also sent out to distant communities by Red Cross lecturers who with slides and lantern shows which is being done by the Alberta Division to improve health in the province as well as how the Red Cross cares for Alberta's sick and crippled children. Requests for health literature and lantern slides should be made to the Health Education Bureau, Red Cross, Edmonton.

This service is free to any community and applications from women's organizations will receive prompt attention, as it is hoped the Red Cross may co-operate for health with the service clubs of Alberta to their mutual benefit.

TO RUN A NEWSPAPER

To run a newspaper all a fellow has to do is to be able to write poems, discuss the tariff and money questions, umpire a baseball game, report a wedding, war, wood, describe a fire so that the readers will shed their wraps, make \$1 do the work of \$10, measure calves, abuse the liquor habit, tell whiskey, scold to charity, go without meat, attack free silver, wear diamonds, advertise, sneer at snobbery, overlook scandal, appropriate, delight potato rubbers, mislead the afflicted, beat the die, grumble, fight to a finish, set type, mold public opinion, sweep out the office, speak at prayer meeting, and in with everybody and everything. — The National Printer Journalist.

Given the sapience of the serpent, and the courage of a lion, and the biles of a rhinoceros, a fellow who can do the few things listed above ought to be able to walk the sea of

ALBERTA'S 1927 CROPS OF WHEAT, OATS, BARLEY, AND RYE

Alberta's 1927 crops of wheat, oats, barley, and rye lead those of the other western provinces as regards average weight per measured bushel according to the report of the Dominion Bureau of Statistics issued on October 10. On the basis of the representing the average for the past ten years Alberta grains are shown as follows, in comparison with those of the other prairie provinces and the entire Dominion.

Alta. Sask. Man. All Can

Wheat 105 93 87 97

Oats 104 93 87 94

Barley 103 96 95 92

Rye 104 102 95 101

In the year 1923 Alberta was also in the lead on the ten year basis with wheat, 105, oats 104, barley 102, and rye 102.

Zamboni
FOR THE SKIN!

WORLD HAPPENINGS BRIEFLY TOLD

Langages of all the races of the world will be preserved on phonograph records for posterity when a unique collection being made for the new museum of languages, Paris, is completed.

The negotiations in connection with the commercial treaty between Canada and Czechoslovakia are now so far advanced that a definite conclusion is expected during the course of the coming winter.

Sir Thomas Lipton completed his sixtieth voyage to the United States when he arrived at New York recently on the *Arcturion* with a challenge to American racers for races in 1923. He made his first voyage in 1847.

A Toronto publishing house announces the publication next month of a book entitled "The Message of the Canadian Old Queen," by Premier Mackenzie King, with simultaneous publication in London and New York.

To study means of protecting the civilian population against the effects of chemical warfare, the Geneva International Red Cross Committee is arranging a meeting of international experts at Brussels, Belgium, January 16, 1923.

More telegrams of congratulation and well wishes are sent by Jewish people than any other group in the United States, the Western Union Telegraph Co. has found out, in compiling a record of messages of a new business nature.

The Prince of Wales and Premier Stanley Baldwin have accepted invitations to be guests of the Canadian Club at a dinner to be given in London, by the club, November 21. This is regarded as a sort of final Windsor celebration of the summer tour of His Royal Highness and the Premier in Canada.

The Toronto Telegram says, "Canada's next royal visit is the visit of the Duke of York, for an authority informs us 1923 will see a visit of the second son of Their Majesties to Canada, when it is understood among the public that will be the opening of Toronto's Royal York's a new hotel."

Westerners Receive Medical Degree
Four western candidates have successfully passed the October examinations of the medical college of Canada, permitting them to practice in any province in Canada. Thirty candidates successfully passed the examinations. The successful ones are: Hugh, Vancouver; P. M. Jones, Victoria; W. H. Munn, Summerland, B.C.; and C. A. Ryan, Vancouver.

Makes Fast Trip
Vernon L. Roberts, with Messrs. A. Chisholm as passenger, arrived at Winnipeg from Fargo, N.D., in his aeroplane, making the trip in the record time of one hour and 55 minutes. The distance travelled and the previous record was one hour and 55 minutes.

It is wise to be certain that the penicillin in any bottle containing it is having done its good quality. The entire row will give you when it comes to keeping it clean.

DYSENTERY WAS SO BAD BECAME ALARMED
Mrs. Wallace Porter, R.N., N.E. 8, Blinn, Ont., writes: "Last summer I was very bad with dysentery. I lost my appetite, and had such severe pain in my abdomen that I could not get up. I passed blood which greatly alarmed me, as I thought it was the end of me. I found the quickest way to get rid of it would be to take

Once Famous Liner Is Being Wrecked

Empress of Japan Being Ripped Equipment Than Many Modern Ships

The hammers and hammers of a wrecking crew are making rapid work of all that remains of the liner Empress of Japan, one of the blue ribbon ships of the North Pacific. For several years the old ship which was launched in a British shipyard 37 years ago, has been lying at anchor in Burrard Inlet. Her once proud and majestic frame of clipped steel has gradually been converted into a bare skeleton of steel, and in a few weeks even this will have gone to Japanese yards to be fabricated into material for new ships. It is said that the man who bought the wreck from the Canadian Pacific Railway, which operated the vessel so many years in the trans-Pacific trade, has already made a fortune through the removal and sale of the vessel's fittings. In these days of rapid production for ships are given the same treatment as the Empress of Japan. Every rivet is a perfect job, the plates were smooth, not a drop of rust on the hulls, but when the ship was new—this is the wrecking crew's work of destruction. The Empress of Japan had friends all over the world. Tens of thousands of people who were on her when she sailed in the days of her prime remember the ship with pride that is shared by the scores of seafaring men who made the ship their headquarters for many years.

The Empress of Japan was one of three sister ships. The Empress of Canada and the Empress of Barbados during the war and served as a hospital ship for Italian troops, later being returned to the merchant service. The Empress of China was lost on a reef off the Japanese coast some thirteen years ago.

Early Home Of Mankind

Find Skull In Africa Of Man Who Lived 25,000 Years Ago
A male skull, declared to be a perfect specimen of the type of man who existed about 25,000 years ago, has been brought to the United States by Dr. George J. Collie, professor of anthropology at Bristol College. Dr. Collie, who represented the Leakey Research of Nairobi in Africa, discovered the skull, which is being sent to the University of Toronto for examination by United States scientists. This skull is said to be the earliest of the type of man who lived in Africa, and is being sent to the University of Toronto for examination by United States scientists. This skull is said to be the earliest of the type of man who lived in Africa, and is being sent to the University of Toronto for examination by United States scientists.

Manitoba Aviation League

Organization Is Expected To Give A New Impetus To Flying In The Province

The keen public interest in aviation, and the fact that Winnipeg, in its time, became one of the most important aviation centres in the world, resulted in the formation of the Aviation League of Manitoba. With leading citizens serving as officers of the organization, and with the Board of Governors, it is expected that the League will give a renewed impetus to flying in this province. The officers of the League are: J. A. Richardson, president; D. C. Coleman, secretary; H. P. Crabbe, treasurer; Board of Governors: Edward Anderson, W. C. Anderson, W. R. Clark, E. B. Coyle, P. G. DuVal, Charles Gray, W. H. Gardner, J. Hunter, S. N. Jones, W. A. Kingston, A. W. McMillan, W. McCurdy, Hugh Oiler, R. H. Parkhill, C. S. Riley, J. A. Sully, W. A. Strain, Mayor R. H. Woodman.

The object of the League, as set forth in the constitution is: To foster, encourage, and advance the development of aeronautics; to kindle and keep alive interest in same and legitimate aviation; to encourage and assist scientific progress of institutions in promoting the science of aeronautics, and aerial navigation, and to promote general aviation; to prepare and distribute general and scientific aeronautical data pertaining to atmospheric conditions, flying conditions and air routes; to encourage and organize volunteer air cadet squadrons for boys and young men, in which they can receive practical training and theoretical instruction in preparation for active participation in aviation; to do all such other lawful things as are necessary or conducive to the attainment of the above objects.

In keeping with the work of the League, Major-General J. H. MacBrien, C.B., C.M.G., D.S.O., addressed the Canadian Club at luncheon in the Royal Alexandra Hotel on Tuesday, October 18.

Wheat Rust Report

Much Data Obtained Which May Prove Valuable
A report covering his work of research into the wheat rust problem in Western Canada, has been completed by J. H. Craigie, of the Dominion Plant Research Laboratory of Manitoba Agricultural College, and has been sent to the National Research Council at Ottawa.

While no announcement of the results of the research will be made until the council has examined the report, it was learned authoritatively that Mr. Craigie's experiments will mark a forward step in the fight of western farmers to overcome the greatest of crop enemies.

Mr. Craigie has been at work for two years or more on his research, but only in recent weeks has he been able to reach definite conclusions. The report will be made public in a few weeks' time.

Hill "Got" For Sale
The fact that "Hill" is to be put up for sale will raise strange memories in the minds of those who have but to hear its name to realize that it is a place of great importance. To those who followed with an eye for the hill, it is a place of great importance.

Germany is represented for the first time since 1914 at the exhibition of the London Salon of Photography.

Argentina is entering a new era of prosperity, caused by increased world demand for its products.

One way to teach good manners to the children is to give them an opportunity of seeing none.

Radio In Demand For All Purposes

Requests Received By Chicago Station Are Many and Varied
People with requests to make, who used to call the newspaper and the telephone operator, have now turned to the radio.

The plan for the realization of the radio station on a certain evening was received by Station WHT of Chicago, and answered to the dot.

From a woman in Nebraska, asking if the station would kindly undertake to market her croquet wicket.

From a woman in Iowa, asking if the station would kindly undertake to market her croquet wicket.

King George Not Wealthy

Has To Consider Personal Expenses And Others

For his great position his Majesty the King is anything but wealthy. He has several times observed that he would gladly go more frequently to reside in Windsor Castle, were it not for the cost of having there, which is over \$200 each year. Owing to the incessant demands upon his Majesty he has carefully to consider his own expenses. Unlike his father, he has a horror of running into debt, whereas King Edward undoubtedly allowed some of his plutocratic friends to borrow money to assist his finances.

King George's wife contributes generally to the support of some of the refugees among the Russian royal family, and he also aids several of the less wealthy of his own relatives. But he particularly appreciates the demands on him for charity and other purposes are incessant.

The Queen weekly has the household accounts, but she is a mild-mannered class good housewife, and in no establishment is every expenditure more closely supervised than in the Royal Household. The King, who is a month receives all the collars, motor, stable, and "outside" accounts, and carefully goes through them.

King George's wife contributes generally to the support of some of the refugees among the Russian royal family, and he also aids several of the less wealthy of his own relatives. But he particularly appreciates the demands on him for charity and other purposes are incessant.

Will Found German Colony

Many Former Aristocrats Plan To Settle in Canadian West

A party of landed German aristocrats have been looking around for land in the St. Walburg district, Saskatchewan.

The names of several of the Germans are familiar as being prominent in the German war news, and if their design is favorable, encouraging the land in the district, a German settlement will add to the number of German colonies in Canada.

Count von von Hagen, formerly a member of the German parliament, and Dr. Carl Schuler, graduate of the University of Göttingen, are among the party. They are leaving for Germany, where they will make a report on the land conditions found. It is their intention to return in the spring, bringing with them their families and a large party of relatives.

Two Home Comforts

McClary's Furnacette

Looks like a handsome piece of furniture, but it's a most efficient heating plant.

Here, at last, is comfort combined with beauty—a genuine warm air heating system enclosed in a handsome, porcelain enameled mahogany finished, all steel cabinet—an attractive addition to any living room—needing no other space—with no register holes to mar the floor.

The Furnacette burns less fuel than the most efficient heating stove, and circulates considerably more warm air than the largest stove burner.

The Furnacette operates like a fireplace furnace. An ordinary coal stove throws out quick heat to a limited distance. Here is a heating plant that lifts cold air from the floor, draws it in at the bottom, and on each side, heats it, humidifies it, and then circulates it—not into one room only, but all over the house.

McClary's Sani-Tabl- Tub

A porcelain enameled bath tub and table combined.

Makes a full sized comfortable bath, easy to get into and out of. Turned over it becomes a porcelain topped table—for work, games, study, meals, and dozens of other convenient uses.

You can say "good bye" right now to the old-fashioned Saturday night wash tub—embarrassing, lonely, always a chore and a nuisance. For here is an ideal combination—a boon to farm wives and country homes—the new Sani-Tabl-Tub.

For a fraction of the cost of a built-in tub with plumbing—in fact for a price only slightly higher than for a porcelain top table alone—you can say this remarkable combination—a full size comfortable tub and a porcelain top table in one.

Local News

Next Monday, October 12, is Halloween, and the local police will be on the look-out for any destructive pranks.

M. B. Dorman, who moved to California last fall, was visiting friends in Bassano and from the week.

Unloaded a carload of salt this week at McKee's Store, and took bottom prices. Buy your cattle salt now. Over 50 tons in stock.

Mr. and Mrs. O. Stango, of Darrin, and Mr. and Mrs. Davis, of Rosemary, were in Bassano Thursday evening attending the same supper in the Masonic Hall.

The birth record at the Bassano Hospital this week lists three baby girls and no boys. They are—daughter to Mrs. Wai, Helsinki, on October 7; a daughter to Mr. and Mrs. Carl Herman, of Milo, on October 8; a daughter to Mr. and Mrs. G. C. Solter, of Duesha, on October 10th.

The Bassano Lodge A.F. & A.M. gave a wild owl supper in the Masonic Hall on Thursday evening of this week. About twenty persons sat down to the supper and afterwards dancing was enjoyed.

HOSPITAL NEWS

Mrs. J. C. Solter, of Duesha, is improving after an operation.

Mrs. L. Macdonald, of Hussar, and Miss Margaret Macdonald, of Chancellors have recovered and returned home. Ole Nelson, of Quessetown, was brought to the Bassano Hospital on Wednesday. He had sustained a serious injury. He was crushed between a tractor and a separator when he slipped while backing the engine and was caught between the two machines.

Mrs. J. Naras, of Rosemary, was brought to the hospital Wednesday, being very ill.

ANNOUNCEMENT TO THE LADIES OF BASSANO

I wish to announce that I will continue to carry on the ladies' hair-dressing department of Foster's Barber Shop, and invite your patronage.

Here and There

To meet the increased activity in aviation the Royal Canadian Air Force will be equipped with 36 new planes, according to information given out at Ottawa recently.

The Canadian Pacific Railway Company has decided to give the name of Princess Elaine to the new vessel building in Scotland for the Vancouver-Nanaimo route, at a cost of \$1,500,000.

To handle the heavy prospective movement of grain this year the Canadian Pacific Railway has opened the Transcona yards at Winnipeg and the new double track between Melton and Whittier Junction.

Some idea of the increase in the volume of traffic through the port of Vancouver is given by the fact that during the past year exports from that port were valued at \$149,000,000 as compared with \$66,000,000 five years ago.

The winter carnival at Banff is to be held from February 4 to 11 this year, according to L. C. Orr, president of the Banff Winter Sports Association. Preparations are under way that give promise of a greater carnival than ever staged at this famous mountain resort.

An exceptional crop of blueberries has been gathered this season according to the agent of the Canadian Pacific Express Company at Kenora, 324,767 pounds having passed through his office to date, and approximately 30,000 pounds being shipped over the lakes to the United States. The entire crop of the total shipment is placed at about \$35,000.
